\* 3dbb2330e6 . \* 0f732d697a . \* ab73955a84) You can use your product key to install or uninstall the game. Selling: ( \* 97fd606bbb . \* 3dbb2330e6 . \* 0f732d697a . \* ab73955a84) Make sure you remember the key, because we do not sell them. We are in no way affiliated with EA.Q: Creating a Dynamic jQuery Drop Down Menu I'm trying to create a dynamic menu that will be based on the number of elements in an array. The markup of the menu is something like this: Test The dropdowns are made via jQuery with the following code: \$('#menu').delegate('.dropdown', 'click', function() { \$('.dropdown').slideToggle(); }); I need to have a function that can loop through the array to create the menu. The function I have is the following: var dropdowns = [{ name:'Test 1', type: 'SubMenu1', url: 'url1' 82157476af
