## About This Game

Experience the exciting day-to-day life of an US police officer in **Police Simulator 18**. Discover a large, lively and freely-accessible US city powered by Unreal (r) Engine 4 and arrest criminals, investigate crime scenes, or hunt down bank robbers. Record traffic accidents, search for stolen vehicles and engage in action-packed highway car chases. Get behind the wheel of three realistically recreated police vehicles with functional cockpits and use the in-car-computer to identify wanted suspects and stolen vehicles.

Go on patrol either alone or together with a friend in the 2-player cooperative multiplayer mode and rush to resolve emergencies. Detect suspicious behaviours and prevent criminal operations.

Your exciting job will lead you through three individual districts - financial, industrial and residential. Stop and check citizens or cars to enforce the law. Pay attention to fugitive suspects and chase them on foot or by car with lights flashing and sirens blaring. Use authentic law enforcement equipment like tasers, radios and handcuffs to protect your city!

## Features:

- Play and experience the exciting day-to-day life of an U.S. police officer
- 2-Player coop multiplayer mode
- Realistically recreated U.S. police vehicles with functional cockpits

- 
- Authentic equipment such as tasers, handcuffs, radios, guns and much more
  - A large and lively open world city with several districts
  - High graphic and simulation quality thanks to Unreal (r) Engine 4
