Travel Retail

PDF

Travel Retail means commercial activities carried out in place of transport. This is essentially the trade that takes place at airport and railway station.

Long positioned on duty free, airport trade has expanded to capitalise on increasing waiting times between the passage of formalities and boarding of passengers.

As for railway stations its about taking advantage's of large flow of daily passage of customers.

On sea retail (not very popular in India)

How is travel retail different than retail.....

In travel retail shopping is not the primary purpose.
Travelling is the main reason to be there.
